

Wednesday

049 | Landscape Photography

Instructor: Eli Vega

3 sessions: Wednesdays, Feb. 8, 15, 22

10:00 – 11:30 a.m. | Zoom

Cost \$42

In this highly interactive course, you will learn about the CDE model for landscapes — equipment needed, types of lenses, flare prevention, filters, timing, lighting, getting vibrant colors, photographing in winter snow, right brain photography techniques, dynamic range, HDR photography, and much more. To get the most out of this course, we encourage you to have either previously taken Beginning Digital Photography or have a solid understanding of camera and photography basics.
