Lecture: Pablo Picasso (1881-1973) is often viewed as producing “wild” or “odd” paintings that we may not like or think of as being very artistic. We will look at his art and early drawing skills, beginning with his birth and continue until we run out of time. We will discover that he painted in cycles: his blue period, his pink period, and his cubist period.

Instructor: Allen Reamer has taught a variety of studio art and art history courses for over 40 years. Allen has a B.A. in Art and an MFA in Sculpture. He was the president of the District of Columbia Art Education Association for 10 years and was very active with the National Art Education Association. Allen is represented by The Gallery at 915 in Fredericksburg, Virginia, and exhibits with the Neu Art Group in Arizona. His recognitions include the NAEA’s Washington Art Teacher of the Year, a Cafritz Fellowship, and letters from President Clinton.
